Subcontractor roles available

Recruit a friend, employee assistance programme, CPD bursary, Physiocare and much more

## Careers with IPRS

Would you like to work for an independent healthcare organisation offering a diverse range of clinical products and services to the public and private sectors?

If your answer is yes then we may have the ideal opportunity for you. The IPRS Group of companies are continually recruiting quality personnel to join our expanding organisation.

We are actively looking for Occupational Therapists, Physiotherapists, Nurses and Paramedics.

Quality | Clinically focused | Flexible | Innovative

IPRS Health are a rapidly growing national company.

We are currently celebrating 21 years of delivering musculoskeletal wellbeing services including Physiotherapy, Telephone Triage, Ergonomic and Workplace Assessments to UK-based corporate organisations, insurers and legal companies.

## What attracted you to IPRS Health?

As a Physiotherapist I have always strived to provide the most clinically appropriate and evidence-based treatment for my patients. Whilst seeking different career opportunities I learnt that IPRS Health not only followed national standards but had invested in creating its own bespoke clinical care pathways and guidelines, to ensure that best practice was followed across the organisation. These core values attracted me to the company.

At my interview I went on to realise that IPRS Health not only provided musculoskeletal/occupational health outpatient physiotherapy but was also involved in various other rehabilitation sectors; such as telephone triage, the use of virtual rehabilitation tools for remote management and the provision of a number of different workplace services (including DSE, Reasonable Adjustment Assessments, Job Demand Analysis and Functional Capacity Assessment) to a wide range of clients. The fact that the IPRS Group was already a well-established company and offered many, and quite different, potential career pathways sealed my decision that it was a company where I would be able to progress and develop my clinical and non-clinical skills in many different areas.

## What advice would you give to someone thinking of joining IPRS Health?

If you are a motivated individual, with drive to succeed and are passionate about providing the best possible care, then IPRS Health is the place for you. Whether you are an experienced Physiotherapist or a new graduate, IPRS Health have the clinical support structure and career progression opportunities for you to grow and develop along numerous and diverse pathways.

- Joe Head, Clinical Operations Manager

As a leading rehabilitation provider, innovation is key to the IPRS Health approach and we utilise the most up to date clinical resources to deliver bespoke health care to over 4000 patients a month nationwide. IPRS Health pride ourselves on clinical excellence and utilise clinical care pathways and current evidence-based medicine to ensure the highest level of clinical care is delivered to all our patients.

**IPRS Health is an award winning rehabilitation provider who, over the years, have been shortlisted and won Rehabilitation First Awards.**

IPRS Health pride ourselves on supporting and developing our employees both professionally and personally. IPRS Health employees all benefit from specific clinical training, support and mentorship in their role to ensure continual professional development and the opportunity to grow and further a career within IPRS Health.

So, if you are a Physiotherapist looking to work for an organisation who are at the cutting edge of clinical service delivery, we would love to speak to you.

## Other opportunities

IPRS Health also have opportunities for established Physiotherapy Practices to become part of our National Clinical Network.

In addition to this, IPRS Health have opportunities for Physiotherapists to join our National Bank List providing cover for our Occupational Health Clinics and delivering workplace services in your local area.
