

JOB TITLE	MSK Physiotherapist / Site Manager (Full-Time and Part Time)
LOCATION/DEPARTMENT	Leicester
REPORTS TO	Clinical Lead Physiotherapist
ACCOUNTABLE TO	Clinical Lead IPRS Health Services

A DAY IN THE LIFE AS A PHYSIOTHERAPIST AT IPRS HEALTH, LEICESTER

You will have a diverse and wide variety of patients to assess and treat. Your week will predominately consist of the management of virtual and face to face musculoskeletal patients working as part of larger IPRS Health team. We strive for clinical excellence and therefore IPRS Health understand the importance for adequate time to complete your assessments. Therefore, our face to face assessments allow one-hour slots for each initial assessment followed by 30 minute follow up reviews. IPRS Health encourage clinical autonomy with treatment so we therefore encourage flexibility to treat your patients on an individual basis keeping in line with the current evidence based guidelines.

As an IPRS Health Physiotherapist we will provide you with a wide variety of skills which will add more variety to your day compared to a typical MSK physiotherapy practice. We also understand the importance of a balanced home and work life and therefore your working days can be flexible based on your circumstances.

Furthermore, we understand the importance for clinical development and therefore we offer an extensive CPD and training plan, whilst also offering you protected CPD time in clinic. IPRS Health will also provide extensive CPD into developing your skills in occupational health (OH) physiotherapy, therefore previous OH experience is desired but not essential.

See <http://www.yourfuture-iprshealth.co.uk/> for more information about working with IPRS Health.

YOUR KEY TASKS AND RESPONSIBILITIES

- To analyse information gained from all sources at your disposal (Current Evidence, Clinical Reasoning etc.) in order to diagnose and to formulate a clear individualised management plan for the patient which reflects the IPRS Clinical Care Pathways
- To work within your scope of practice and ensure that appropriate referral to General Practitioners, Specialists and Allied Health Professionals is done as soon as a need has been identified
- To incorporate a holistic approach to patient management, which takes into account the Biopsychosocial Model, and which may include, but is not solely limited to, principles of Cognitive Behavioural Therapy (CBT).
- To ensure that the patient outcome data is uploaded on time each month
- To supervise and complete regular performance reviews with other onsite physiotherapists at Leicester
- To liaise with the Clinical Lead Physiotherapist on diary management and clinic capacity
- To cover a range of assessments, primarily including Physical Musculoskeletal Assessment.
- To maintain clinical objectivity at all times, with the patients wellbeing in mind
- To maintain accurate medical notes on the patients file and on the IPRS database
- To demonstrate the impact of the clinical intervention by providing accurate reports and communication with the client, and maintaining database records for statistical analysis
- To ensure the monthly clinic stock order is completed and sent

General:

- To take initiative in maintaining your individual professional development in order to continue to deliver the most appropriate interventions at all times
- To maintain good communication with the client's Human Resources, Occupational Health and Line Management
- To liaise, as regularly as is needed, with your Line Manager and in certain situations with other IPRS staff e.g. Group Clinical Operations, Human Resources, Administration team
- To audit outgoing clinical reports to maintain core clinical standards
- To have an understanding of, and work within, the agreed client Key Performance Indicators (KPIs)
- To prioritise work tasks, and time manage to ensure tasks are completed accurately and within set timescales
- To take initiative and responsibility within your site and actively contribute to the overall effectiveness of the clinical service
- Employees must be aware of the responsibilities placed on them under the Health and Safety at Work Act (1974) and ensure that agreed safety procedures are carried out to maintain a safe environment for employees, patients and visitors.
- To undertake any other duties compatible with the grading of the post, as required
